✚ Read the following paragraph carefully and answer the questions.

Ants are of different kinds. They are of different colours too. Ants are tiny social creatures. They live in large groups called colonies. The members of the colony work together. By working together, they complete many jobs. The queen ant lays eggs. Soldier ants protect the queen ant and the colony. They also gather food and attack other colonies if they need new nesting space. Worker ants take care of babies, look for food and build ant homes called anthills. Ants are important part of ecosystem. By digging the soil, they create spaces in it. These spaces lock air and water inside the soil which makes it fertile. In short, ants are useful insects for ecosystem.

Q.No.21. Identify the meaning of the word “tiny”.

- a) Small
- b) Big
- c) Important
- d) Heavy
